

Succinct Scientific Writing

The only thing more difficult than your team's research is writing about it. But it doesn't have to be.

Whether your team writes for the FDA, colleagues, the public, or a client, in this customized workshop, they'll learn strategies to apply their problem-solving skills to convey—effectively and confidently—the essence and nuances of their work.

Offered onsite or virtually

Learning Objectives and Outcomes

At the conclusion of this workshop, participants will be able to

- Write for their readers (both SMEs and non-technical readers)
- Use language to write precise, concise scientific documents
- Use organization to guide readers
- Structure sentences and paragraphs to emphasize
- Incorporate rhetorical tools to enhance readability
- Incorporate the components of logic
